

# NEXO

With a dynamic design and a unique curve that propels you in the direction of the movement NEXO suits everyone who has a job that requires speed and agility.

Vital hygiene standards can be maintained as it is produced in Steri-Tech™, a high quality, antistation polymer that allows sterilization by autoclave NEXO also offers excellent anti-slip properties due to the sole design, a closed heel for extra support and shock absorption technology.

With NEXO you can keep the pace without ever losing your style.

# **DESCRIPTION**

**NEXO**, is a bicoloured occupational sneaker made entirely of polymeric materials with the following components:

- Removable insole
- Instep-strap
- Ventilation holes both on sneaker and insole.

## **SPECIFICATIONS**

**Shock Absorption** 4 Reduces the occurrence of micro-lesions in tendons, bones and joints and the feeling of tired legs.

**Anti-slip 5** The sole is designed to reduce the risk of slipping.

**Washable** The sneaker can be machine washed up to 90°C.

**Removable Insole** Removable insole that is flexible, breathable and machine washable up to 90°C.

**Lemon Scent** The sneaker has a fresh and soft fragrance, with a lemon scent that refreshes the footwear.

Unisex Style designed to be worn by men and women.

**Breathable** Regulates the temperature and humidity of the foot.

**Upper Protection** Avoids the entrance of liquids to the inside of the shoe.

**Portuguese Shoes** Footwear 100% developed and made in Portugal.

# **USERS**

**EN ISO 20347: 2012 (6.2.2.2)** Antistatic footwear.\* **EN ISO 20347: 2012 (6.2.4)** Energy absorption of seat region.

SATRA TM 144: 2011 Friction (slip resistance) of footwear and floorings.

# **TECHNICAL SPECIFICATIONS**

Heat resistance autoclavable - up to a maximum of 134°C Slip-resistant

Resistant to abrasion

Resistant to detergents

Resistant to lactic acid

Resistant to liquids (such as infiltration of blood)

Resistant to chemicals

Resistant to saltwater

Recyclable

# **MATERIALS**

The material used for NEXO is called Steri-Tech™, a material that provides odor resistance, inhibits bacterial and fungal growth and is non-toxic.

### **ATTENTION**

NEXO is produced in Steri-Tech™, a material that resists to several sterilizations in autoclave, but durability might be impaired depending on sterilization parameters and number of cycles. NEXO resists to several washings in the washing machine at 90°C. It is not recommended the use of bleaching agents during washing machine cycles at 90°C.

The resistance of the NEXO material to washing depends on several factors:

- Type of detergent
- Concentration
- Cycles' durationTemperature
- Physical stress during the cycles

<sup>\*</sup>Only applies to selected colours.
